COLORART

Con COLORART, la " falegnameria " di Ceramica Sant'Agostino diventa sempre più artistica, arricchendosi con quest'ultima interpretazione fortemente creativa dell'effetto legno in gres porcellanato, concepita nel solco del successo delle precedenti BLENDART e PICTART. Il "legno ceramico" viene qui bruciato e verniciato con colori che fanno vivere gli elementi naturali, dalla luce al carbone, dall'acqua alla terra, trasportandoli all'interno di suggestivi ambienti residenziali ma, specialmente, commerciali e contract.

With COLORART, the "carpentry" of Ceramica Sant'Agostino becomes ever more artistic with this latest highly creative interpretation of the wood effect in porcelain, conceived in the wake of the success of the previous BLENDART and PICTART collections. The "ceramic wood" is here burnt and painted with colours that enliven the natural elements, from light to coal, from water to earth, transporting them within suggestive residential but especially commercial and contract environments.
