SLIMTECH CONCEPT 2

Not just Ceramic Tiles
Beyond your imagination.

序 Preface

大版磚，不再只是磁磚，而是家居生活美學的精華。

它能與家飾、家具 緊密結合，以宏大的尺度、細膩的質理，勾勒空間的格局與靈魂。

更隨著 Biotech 科技 的融入，大版磚跨越建材的界限，邁向健康無菌、環境友善 的新境界。

《2025大版磚專冊》，是一場空間美學與生活價值的革命。它不僅定義設計，更開啟跨領域的無限未來。

Large-format tiles are no longer just tiles, but the essence of home aesthetics.

Seamlessly integrated with furnishings and furniture, they reshape space with monumental scale and refined texture, defining both character and soul.

With the infusion of biotech innovation, large-format tiles transcend materials, ushering in a new era of health, hygiene, and eco-conscious living.

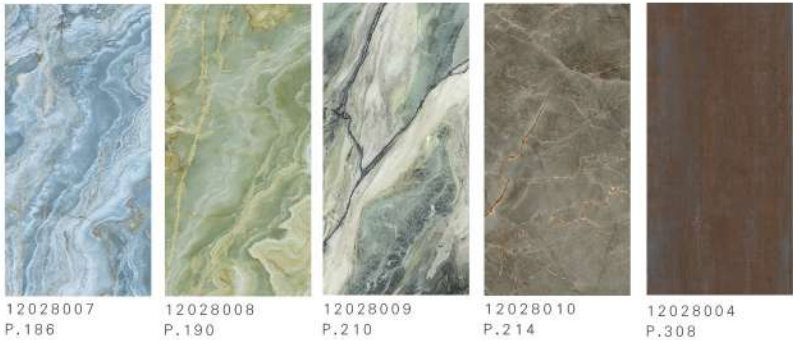

The 2025 Large-Format Tile Reference is a revolution in spatial aesthetics and lifestyle values — not only redefining design, but opening doors to boundless possibilities.

...comes from the artist's
choice to deny the representation of reality
to enhance their feelings through forms,
...the artist's point of
reference is the text of Wilhelm Worringer
Abstraction and Impressionism, 1908, where the
art is interpreted by the artist's intention.
The form is understood as a result of the
encounter between man and world, in an
alternation of empathy, or closer to reality,
and abstraction, namely the denial of reality.
The term "abstract art" is so often
referred to all forms of non-figurative
visual artistic expression, where there
are no handholds that allow to bring
the image painted in any representation
of reality, not mediated by the
sensitivity of the artist as in the case
the Impressionists.

RE10030001 拿鐵

Box
Tree
Art.

The architecture comes from the artist's
desire to deny the representation of reality
by art and to bring things through form,
form and color, fundamental power of
reference to the art of William Wainwright
Abrahamson and ... 1981, where the
art is inspired by the artist's perception.
The box is understood as a result of the
relationship between form and world, to an
alternative of reality, a close reality,
and abstraction, where the artist's reality
is the only reality.

The term "box art" is a term
related to the form of the box, where
visual artistic expression, where there
are no boundaries that allow looking
the image painted in any representation
of reality, not mediated by the
reality of the artist, is the only
the representation.
