La base bianca di Gres Porcellanato è il backstage su cui prende vita la giungla in cui addentrarsi. Due versioni di colore: neutra e aggressive, stesso spirito selvaggio per entrambe. Disegnati completamente a mano in "tecnica mista" - acquerello, matita e china - i tre soggetti mix nella scatola consentono di avere una parete variegata, non ripetitiva e assolutamente timeless e infinitamente chic. La stampa digitale HD unita al tratto serigrafico rigido del nero ci proiettano realisticamente all'interno della rigogliosa flora equatoriale.

The White of "Basics" gres porcelain program is the backstage where the jungle comes to life. Two colours: neutral and aggressive, the same wild spirit for both. Completely handmade drawn with a "mixed technique" - watercolor, pencil and ink - the three subjects mixed in the box allow you to have a "non-repetitive" wall, absolutely timeless and endless chic. Digital HD printing is combined with the plain screen one to drive us realistically into the lush equatorial flora.

Nel sistema moda contemporaneo, l'animalier è sempre più usato da diversi stilisti in tutte le sue declinazioni. La declinazione che abbiamo scelto noi parte da due tra le texture più usate: il leopardo e lo zebtrato, interpretate in perfetto "street style". Un "print animalier", texture passepartout per persone grintose che amano mescolare colori audaci e neutri per creare mix equilibrati, espressione di contemporary homestyle.

In the Fashion-system Animalier is used more and more by different stylists in all its expressions. The declination we have chosen starts with two textures: leopard and zebra, designed in perfect "street style". A "print animalier", passepartout texture for gritty people who love to mix bold colors and neutral ones to create balanced mix, expression of contemporary homestyle.
