Carpaz

Carpaz gives us cabin fever in the best way possible. Crowned with a beautiful patina similar to that of reclaimed wood, the tile collection lends extra texture and a rustic intrigue to any space - residential and commercial alike. The rugged organic vibe is only amplified by its unconventional dimension of 23x120cm, which successfully conveys an authentic impression of wooden panels. We highly recommend pairing Carpoz with modern, streamlined decor for a fun contrast in style sensibilities.

Lignum

Create an instant nature-inspired focal point at home with Lignum. A modern take on the classic form of its inspiration that is wood, the tile collection offers three colour choices that will delight even the advanced aesthetes. Oak and Moka - two different shades of brown that are equally inviting - easily serve as a warm counterpoint to the contemporary interiors. Drift's smoky grey hue, on the other hand, is a vision of serenity and will fit stunningly into spaces with a restrained palette.
